1. Delete the paragraph beginning at page 78, line 10, and substitute therefor the following paragraph:

It will thus be appreciated by those skilled in the art that due to the degeneracy of the genetic code, a multitude of nucleic acids sequences encoding NCSM polypeptides of the invention may be produced, some of which may bear minimal sequence homology to the nucleic acid sequences explicitly disclosed herein. Using, as an example, the nucleic acid sequence corresponding to nucleotides 1-15 of SEQ ID NO:1, ATG GGT CAC ACA ATG, a silent
